

Empowering Education Through Innovation in Morocco

Our team is composed of **Mohamed Ilias Selmane** (Project Manager), **Fatima Chaabani** and **Aymen Hommani** (Product Managers), **Achraf Sadeq** (UX Researcher), **Yassir AitAli** (UX/UI Designer), and **Ayoub Boumait** (Data Analyst).

Problem Statement

1 Problem

Low-quality education is a widespread issue impacting millions, especially in low- and middle-income countries like Morocco.

2 GCGO

Education

3 Why It Matters

Quality education is a fundamental right, crucial for individual empowerment, societal progress, and achieving global education goals.

Personal Impact: Ikram's Story

Meet Ikram, a Moroccan student facing challenges due to limited resources, outdated materials, and overcrowded classrooms, hindering her academic potential and future opportunities.

Out-of-School Children in Morocco

▼ Data 1 & Analysis

This map highlights over 600,000 out-of-school children in Morocco, with higher percentages in rural and less developed regions. For instance, in Marrakech-Tensift-Al Haouz and Taza-Al Hoceima-Taounate, over 30% of children are out of school.

FIG 7. STUDENT REPETITION BY GRADE AND LEVEL IN PRIMARY SCHOOL

Repetition Rate in Primary Education

▼ Data 3 & Analysis

This figure displays the repetition rate in primary education, showing the specific grades in which students are more likely to repeat. It suggests that of the first 5 grades of primary in Morocco, students are more likely to repeat grade 1. The repetition rate in grade 1 is 12.3% (for both males and females), which is 1.6 points higher than the average repetition rate across primary grades of 10.7%.

Solution: Innovative Education App

Solution Description

Our app tracks student progress, facilitates parental monitoring, and fosters direct communication between professors and students.

Why This Solution

Addressing communication barriers and providing comprehensive academic coverage positions our app as a preventative measure against dropouts.

Effectiveness Prediction

Comprehensive academic coverage, free accessibility, and a customized user experience push us to believe in the likelihood of success in mitigating dropouts.

Wireframes: Solution Visualization

Pain Points & Resolutions

1

Pain Point 1: Accessing Extra Notes

The app addresses this by providing a centralized platform for supplementary materials and diverse learning resources.

2

Pain Point 2: Difficulty in Studying

By offering readily available online extra notes, the app makes studying more manageable and enhances understanding.

Made with Gamma

A blurred background image showing a person's hand holding a smartphone. The screen of the phone displays a document with several blue highlighted sections, matching the color scheme of the main slide.

Adaptation & Enhancements

-  1
-  2

Recommendation 1: Bolder Colors

Responding to user request, the app now features bold, vibrant colors to enhance user experience and engagement.

Recommendation 2: Dark/Light Mode

Newly added feature provides convenience and customization, ensuring an adaptable experience for all users.

What's next?

Our next step would be to develop a comprehensive app prototype, conduct pilot testing in schools and establish partnerships with educational institutions and technology companies.

Why?

By bridging the education gap and empowering Moroccan students, our app can unlock the full potential of Morocco's future generation, leading to a brighter and more prosperous society.
